2,000 calories a day is used for general nutrition advice, but calorie needs vary. Additional nutrition information available upon request.

GS Applebee's defines gluten sensitive as menu items prepared without gluten-containing ingredients based on information from our approved suppliers. We do not claim that items marked as gluten-sensitive are "gluten free" because we cannot confirm that they meet the FDA's definition of "gluten free" (<20 parts per million of gluten). Because we have multiple sources of gluten in our shared cooking and prep areas, including common fryer oil, we are unable to guarantee that any menu item can be completely free of gluten or other allergens.

FOOD ALLERGIES? If you have a food allergy, please speak to the owner, manager, chef or your server. Applebee's cannot ensure menu items do not contain ingredients that might cause an allergic reaction, or impact other dietary restrictions. In addition, some menu items may contain alcohol. Allergen information is available upon request.
