positions

12 months
of current and
accurate data
(updated
quarterly)

Recent growth in the economy has left organizations across the country scrambling for current compensation data. As more jobs are created, employees are feeling confident to explore opportunities with other employers, seeking better pay and benefits. Employers need to review their current compensation and benefits plans and make the necessary adjustments to retain employees.

The Michigan Chamber has partnered with WageAccess® to provide you with current and accurate salary and benefits survey results at a significantly discounted price. The innovative Internet-based reporting allows competitors to create customized reports and share current wage information while maintaining complete participant confidentiality.

Free Demonstration!

The online demo at bit.ly/WageDemo provides a realistic simulation of the actual operation of the survey web site.

Save up to \$350!
