Dear Industrial and Marshall Manufacturing Association partners:

The Marshall Area Economic Development Alliance (MAEDA) works with Marshall retailers to promote downtown Marshall as the place to live, work, shop and visit. One way to improve the ambiance and preserve the historic feeling of our quaint downtown district is to reduce noise levels.

MAEDA greatly appreciates our industrial partners and hopes you will work with us to lessen noise by reducing semi-truck traffic through downtown Marshall. MAEDA asks our industrial partners to consider using an alternative truck route, such as driving west on Michigan Avenue to merge on I-69, or M-227 (Industrial Road) to I-69, therefore avoiding downtown Marshall.

Thank you for your consideration of this proposal and for our shared desire to make downtown Marshall the best it can be. Please contact me with any questions.

Sincerely,

A handwritten signature in blue ink that reads "Scott Fleming". The signature is written in a cursive style.

Scott Fleming, CEcD
CEO, MAEDA
